

**TO WHOM IT MAY CONCERN**

**PRODUCT APPROVAL - ELECTROMAGNETIC FLOWMETERS**

The Standards and Materials Approval Committee (Water) of the Ministry of Electricity & Water has examined the following product and all the relevant information submitted about the product and hereby approves its use in MEW works related to Drinking Water Supply.

- Name of the Product : Electromagnetic Flowmeters - DN 6 to DN 1400
- Brief Description : Electromagnetic Flowmeters for the accurate determination of the flow rates.
- Standards to which the product conforms : MEW Project Specification
- Name of the Manufacturer : M/s Badger Meter Europa, GmbH
- Country where manufactured : Germany
- Local Agent : M/s Al-Oufy Trading & Services Co. LLC
- Remarks : Complies with International Standards also.
- Special Observations : Each consignment shall be accompanied with an independent inspection/testing agency certificate in full compliance with the following requirements :

- i. Material Specification
- ii. Performance Specification
- iii. The internal coating is non-toxic and is suitable for conveyance of potable water as certified by WRC, UK/NSF, USA or other acceptable testing agency.
- iv. Complies with Project Specification of MEW
- v. Accuracy vs Velocity curve (0.3m/s to 10m/s) and confirmation that accuracy is maintained for ambient temperature range 0°C to 50°C and liquid temperature of 40°C.

Date of Approval : 03.01.2000  
Date of Expiry : 02.01.2002
